LORD LONSDALE SUED FOR

SPECIAL DISPATCHES TO THE RECORD UNION. DOMESTIC NEWS.

fornia. Washington, October 7th. — The War Department has prepared an order for the removal of the headquarters of the Division of the Pacific from the Presidio to San Francisco. This action is based upon recommendations made by the Quartermaster General's Department, and is indorsed by the Departmental Commander. The reasons assigned for this move are principally of an economical character. There are now employed at the headquarters a large number of civilians, who cannot, of course, make their homes at the post, and they, as a general thing, are compelled to travel four a general miles to reach their work. As a result, they are put to great expense in getting to and from the post. The War Department has been making some calculations, also, and has concluded that it might prove cheaper to pay an official commutation for quarters than to keep the post in repair and fur-nished. It is also stated that the policy of the War Department has been to place both Division and Department headquarters in cities where it is practicable, as it is found that both mail and telegraphic business can be done with greater celerity and correct ness, and that, in case of emergencies, bet ter facilities are always at hand. The iten of freight upon supplies is one to be con-sidered, and the Quartermaster's Depart-ment, which can always buy its supplies delivered at the post when the headquar-ters are in cities, is urging this as one of its strongest reasons for the transfer. Protestant Episcopal Convention.

The discussion was opened by Dr. Huntington, who spoke in support of his resolution. Other speeches followed, and the Convention adjourned until 1 o'clock.

On reassembling, various memorials were presented relative to liturgical revision, and Dr. Adams offered a constitutional amendment providing for a reduction of one-half the representation in the Convention. I was perfectly convinced that such statements were preposterous, and the acts now show that the receipts at the Park were greater this year than last-or compared with \$24,108 41 last year, and this notwithstanding there were some hundred less single admissions and season tickets sold, amounting to \$517 75,

A certain Sacramentan is troubled by ghosts, and it has been noticed that they bother him most after he has been induiging freely in liquor for a day or two. A few mornings since he announced to a friend that he had a rough experience the night before. About the "witching hour," while he was lying in bed, wide awake several spirits entered the apartment, and he recognized among them some Sacramento boys, who were old firemen while residents of the Capital City, and full of rough jokes. They strolled about the room, and one of them, Tom—, came upon a set of boxing gloves, and immediately called out, "Hi! here's a snoozer that's got hoving gloves, Let's have some that's got hoving gloves. Let's have some that's got hoving gloves. Let's have some that's got hoving gloves. Let's have some that a some the same that the same t that's got boxing gloves. Let's have some fun!" Two of the ghosts put on the mittens and sparred in fine style for a while, and then they turned upon the occupant of the bed and gave him a terrible ham-mering, causing him to fly from the room. In narrating the incident next day he de-clared that they were the roughest ghosts he ever met with. Just now he is in the station-house, undergoing a course of jailer Farren's hygiene antidote.
